Professional Summary

Final-year B.Tech (CSE–AI&ML) student with hands-on experience in **Agile SDLC**, **requirements clarification**, **coding**, **testing**, **debugging**, and **deployment**. Strong in **Data Structures & Algorithms**, **OOP**, **SQL**, and **Python** with exposure to **cloud fundamentals** (Azure/AWS/GCP). Collaborates effectively in teams, communicates clearly, and takes ownership to deliver reliable, cost-effective, high-quality solutions.

Technical Skills

Programming: Python, C, Java (intermediate)

Web / Frameworks: HTML5, CSS3, ASP.NET Core (basics), Spring Framework (basics)

Databases: MySQL, PL/SQL, SQL Server (basics), ANSI SQL

Cloud: Microsoft Azure, AWS, Google Cloud Platform (fundamentals)

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems (basics), Networking (basics), Linux

Practices: Agile SDLC, Low-Level Design (components), Test Scenarios, Version Control, Deployment

Tools: VS Code, PyCharm, Tableau

Familiarity: Cybersecurity (basics), IoT (basics), Web API concepts

Education

B.Tech — Computer Science & Engineering (AI & ML)

2022–2026

Seshadri Rao Gudlavalleru Engineering College, Krishna (dt)

CGPA: 8.48

Intermediate (MPC) — Sri Chaitanya Senior Inter College

2020–2022

Percentage: 90%

Experience

Developer Intern, AIMERS

2 Months

- Built an **object detection** solution using **Python & OpenCV**; wrote modular, testable code and fixed defects via iterative debugging.
- Designed Tableau dashboards for **data analysis**; collaborated in **Agile** ceremonies (stand-ups, reviews) and clarified requirements to align deliverables.

Core Team Member, Hackshop (EdTech)

2024–Present

- Organized **hackathons/ideathons/workshops**; managed partnerships, timelines, risk mitigation, and **on-time delivery**.
- Built lightweight platforms to enable collaboration and rapid prototyping; **ownership** end-to-end.

Selected Projects (SDLC, Testing, Deployment, Ownership)

Hydro Hub — Water conservation platform integrating **hydroponics** and **water quality monitoring**; **OpenAI** API for intelligent suggestions. Executed **requirements** → **LLD** → **implementation** → **testing** → **deployment**.

Farm Link — MySQL-backed platform connecting farmers to digital marketplaces; implemented CRUD flows and basic **Web/API** patterns.

Emotion-Aware Auto Dubbing (In Progress) — Emotion detection driving voice modulation for regional cinema; focused on data pipelines and evaluation.

Certifications

Smart India Hackathon 2024 (National Level) | 100 Days of Python (Udemy) | Industrial IoT (NPTEL) |
Introduction to Data Science with Python (EdX)

Strengths

Analytical problem-solving | Clear communication | Team collaboration | Adaptability | Ownership & accountability | Continuous upskilling
